Executive Summary

Conclusion:	Positive
Confidence Score:	100%
Summary:	Job-related injury (right knee sprain and right shin contusion) from slipping on a wet stair tread while carrying lumber at the Riverfront Apartments site. Injury date 2023-11-02; urgent care treatment; disability began 2023-11-03; returned to light-duty carpenter work by 2023-11-10. The claim was reported promptly. The policy provides Workers' Compensation coverage for bodily injury by accident arising from employment within the policy period (2023-05-15 to 2024-05-15). Since the accident occurred in New Hampshire, coverage depends on NH being listed as a covered state or on an Other States Insurance endorsement; the excerpt emphasizes California endorsements and does not confirm NH coverage. If NH is covered, the claim is plausibly within Part One; if not, out-of-state coverage gaps could lead to denial or limitation. Overall, coverage is plausible but contingent on state coverage enumerated in the policy.
